County: Kent

What's special about South Africa?

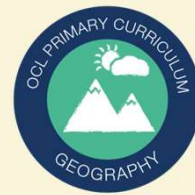

- The springbok is the national animal of South Africa
- The most popular sports in South Africa are football, rugby and cricket
- South Africa is in the continent of Africa

Map of the world

Previous learning

Early Years- Understanding of the World:

- Draw information from a simple map.
- Draw children's attention to the immediate environment, introducing and modelling new vocabulary where appropriate.
- Familiarise children with the name of the road, and or village/town/city the school is located in.
- Look at aerial views of the school setting and local area, encouraging children to comment on what they notice, recognising buildings, open space, roads and other simple features

Core Learning

- Know the area where they live (area name+ city name)
- Know the important physical and human features their local area (eg landmarks, parks, rivers, forests, hills, coastline)
- Know their own address
- Know where South Africa is on a world map and what continent it is in (Africa)
- Know that SA has the following characteristics: flag, the national animal is a Springbok, football and rugby are popular sports, it has a hot climate with lots of sunshine
- Know that a map is a drawing that shows a plan of somewhere
- Know that some things are the same and some things are different between where I live and South Africa:
 - Same: children go to school, there are the same things to do like visiting a park or a shop or a post box
 - Different: The weather is hotter and dryer in South Africa, some of the houses are a different style to houses where I live.

Independent learning at home

- Practice learning your address off by heart
- Use the flashcards of the key vocabulary from the term to play different game:
