

Calling all Oasis Academy Boulton Maths Champions!

You have all been working so hard on Times Tables Rockstars and Numbots it is time for a competition!

Starting from Friday 19th June you have to answer as many questions correctly as you can. (The highest score over the last 30 days is 7,828 to give you an idea!)

There will be one winner from each year group and then a final 'Champion of Champions' - the child who has answered the most questions correctly in the whole school!

The competition will end on 13th July and the winners will be announced in the newsletter and notified during the last week of the school year.
