

Year 5 New National Curriculum

Pupils should continue to apply and develop a broader range of skills, learning how to use them in different ways and to link them to make actions and sequences of movement. They should enjoy communicating, collaborating and competing with each other. They should develop an understanding of how to improve in different physical activities and sports and learn how to evaluate and recognise their own success.

Pupils should be taught to:

- Use running, jumping, throwing and catching in isolation and in combination
- Play competitive games, modified where appropriate [for example, badminton, basketball, cricket, football, hockey, netball, rounders and tennis], and apply basic principles suitable for attacking and defending
- Develop flexibility, strength, technique, control and balance [for example, through athletics and gymnastics]
- Perform dances using a range of movement patterns
- Take part in outdoor and adventurous activity challenges both individually and within a team compare their performances with previous ones and demonstrate improvement to achieve their personal best.

In upper Key Stage 2 children should still have a high focus on fundamental movement skills and these will be taught as part of each unit, for those that are more able they will begin to focus on specialising these skills to specific sports.

Long Term Overview

Term	PE Unit
Autumn 1	Dance
Autumn 2	Gymnastics
Spring 1	Invasion Games
Spring 2	Swimming
Summer 1	Net and Wall
Summer 2	Athletics
